Is there anything about the course structure, assignments, or sessions you would change? Do you have any concerns — about your progress, the program, or anything else — you would like the program team to be aware of?

Students should be made clear at the start of the semester this would count as a form of internship and class all together, I think that would help the students feel more motivated to get some work in.

Additionally, there could be IIE specific recruiting events for current and previous IIE alumni.

Thank you for completing this survey. Your feedback helps us improve the IIE program.
